***Not USBE qualified are licensed educators teaching outside of their endorsed subject area. Some are working on endorsement(s) to qualify; others, considered by their administrator as proficient and knowledgeable in the area, are teaching certain classes to meet the scheduling needs of the student body.*

The following designations apply to educator licenses, license areas of concentration, and content endorsements. For more information, please see

Professional: The license-holder has met all requirements established by the state of Utah to be employed as an educator in the area of licensure.

Associate: The license-holder has met the minimum requirements established by the state of Utah to be temporarily employed as an educator in the area of licensure for three years. To continue to be employed as an educator beyond three years, the license-holder must meet the requirements for a Professional license.

LEA-Specific: The license-holder has met all requirements established by the Wasatch County School District Board of Education to be employed as an educator in the area of licensure in Wasatch County School District.
