Educator Assignments were pulled from CACTUS October 15, 2025. Table was compiled by USBE.

Professional Qualified for Assignment: Educator has a professionally license and is fully qualified for the assignment.

Qualified through an Associate Program: Educator has an associate license through a prep program to get a professional license or the educator has a professional license and is in program to get an additional license area or endorsement to become fully qualified.

Qualified through an LEA Specific: Educator is teaching in area that they have been approved by the local school board to teach.

Percentage of Professional Educators Teaching out of Area is the percentage of professionally licensed classroom educators who are teaching in area where they lack professional qualifications.

Percentage of Professional Classroom teachers is the percentage of educators in the classroom who have a professionally license.
